WORK EXPERIENCE

Musketeers Tech

Jan, 2024 – Present

Software Engineer

Labore, PK

- Led end-to-end project development at Musketeers Tech, ensuring on-time delivery and quality standards.
- Managed client communications, translating requirements into actionable project plans.
- Conducted regular client meetings to provide updates and gather feedback.

Devsinc

Jun, 2023 – Jan, 2024

Associate Software Engineer

Labore, PK

- Writing clean, efficient, and maintainable code according to specifications provided by project managers.
- Communicating with clients to gather requirements, and address concerns throughout the development lifecycle.
- Assisting in the design and architecture of software solutions under the guidance of senior team members.

Devclub

Oct. 2019 – Jun, 2023

Full Stack Developer

Remote

- Managed end-to-end project pipeline at a tech startup dedicated to delivering cutting-edge technology solutions.
- As a full stack developer, I oversaw our client communication, product roadmap, and developing solutions.
 - Engaging with clients to gather feedback, validate project plans, and iterate on service offering.
 - Developing software solutions to optimize operations and save and make our clients thousands.
- Recruiting a high-performing team of employees. Providing guidance to team members innovating growth.
- Leading the development and iteration of the company's products and services. Overseeing the product roadmap, feature prioritization, and user feedback collection to ensure alignment with market needs.
